

Vocabulary Activities 6th Grade

Please complete 3 activities in a row (up and down, across, or diagonal).

<p>This is very basic. You may simply write a sentence using each word. Each sentence must have the verb conjugated correctly. Articles and nouns must be in number and gender agreement. Underline each vocabulary word.</p>	<p>Write a poem using as many words as possible. (It does not have to rhyme!)</p>	<p>Make an audio recording of a play or some type of presentation of the vocabulary words. You need to use all of the words and the recording WILL be played aloud in class for all to hear. Include a written copy of the script. I encourage you to give this one a try.</p>
<p>Make up a crossword puzzle using at least 12 of the words. If you have one of the crossword puzzle programs for your computer this one is pretty easy. I may even use your puzzle as the test! Include an answer key. (Check out puzzle programs on the internet, i.e. www.puzzlemaker.com)</p>	<p>Make up a test using all of the words. Creativity counts here. Don't just write the word and leave a blank for fill in. Do matching, multiple choice, fill in the blank, etc. Include an answer key.</p>	<p>Write a creative story using all of the words. Please underline them.</p>
<p>Write each word in a column. In a second column, write a synonym for each word and in a third column, write an antonym for each word.</p>	<p>Make a set of flashcards with the vocabulary words on one side and a hand drawing, picture, or graphic (downloading from internet is OK) on the other. Neatness is essential.</p>	<p>Draw pictures that symbolize the meaning of all of the words. Make the pictures a unified scene or a collage. (This will be very personal and it may carry meaning only for you. If it helps you memorize the words... it's all that counts!)</p>
